We are a community based group whose objective is to provide free educational meetings to those interested in learning more about substance use disorder, treatment, recovery and mental health issues. Our belief is that the more families learn and understand substance use disorder as a health issue, along with treatment, recovery and mental health they can be on their own path to recovery and be able to support their loved one who is afflicted by substance use disorder. **Events listed on FB [ROC Families In Recovery – in conjunction with SOARS](#)**
